(iii) The cumulative maximum number of beds permitted for all of these uses combined on building sites located wholly or partially in the area including and within one-third of a mile of the central business district is 1100.

(iv) In the event of a conflict between Subparagraphs (ii) and (iii) and the provisions of any special purpose, planned development, or conservation district ordinances, Subparagraphs (ii) and (iii) control.

(v) This use must be spaced at least 1,000 feet away from:

(aa) a church;

(bb) a public or private elementary or secondary school;

(ee) any other overnight general purpose shelter.

If this use provides shelter for more than 50 overnight guests, it must be spaced at least one-half mile from any other overnight general purpose shelter. For purposes of these use regulations, measurement is made in a straight line, without regard to intervening...
structures or objects, from the nearest boundary of the building site containing the overnight general purpose shelter to the nearest boundary of the building site containing the church, public or private elementary or secondary school, or residential use, or to the nearest boundary of the residential or historic overlay district or public park, whichever is applicable. The distance between overnight general purpose shelters is measured in a straight line, without regard to intervening structures or objects, between the nearest boundaries of the building sites on which the shelters are located.

(vi) This use must be located within one-half mile of public transit.

(vii) This use must comply with all applicable licensing requirements.

(ix) Whenever an overnight general purpose shelter operating on city-owned land in full compliance with all applicable laws is, through no fault of its own, forced to vacate its current location as a result of the direct, positive, and affirmative action of the city, and if the requirements of this subparagraph are met, the shelter shall be permitted to relocate in any nonresidential district for a period of time of one year without applying for an SUP. The SUP requirement shall be suspended only if the proposed new building site is located a minimum of 1,000 feet from any building site containing any residential use listed in Section 51-4.201 and a minimum of 1,000 feet from any building site containing another shelter. All measurements shall be taken radially between the building sites in question. In addition, the shelter must obtain a certificate of occupancy and any other required licenses and approvals before it may begin operating. A shelter that relocates in accordance with this subparagraph shall not acquire any nonconforming rights during the period of suspension, and any investment made in land, buildings, or structures during that period shall be at the complete risk of the shelter that an SUP may not ultimately be granted. At or before the end of the one-year period, the shelter shall either file an application for an SUP or cease operations. A shelter that files an application for an SUP in accordance with this subparagraph may remain operating while the application is pending before the city plan commission or city council; however, if the application is denied or withdrawn, the shelter shall cease operations no later than 60 days after the date the final decision is made to deny the application, or the date the application is withdrawn, whichever is applicable.
