(b) Duplex uses are permitted, and the development standards of the D Duplex District apply to those uses.

(c) Multiple-family uses are permitted, and, except as provided in this subsection, the development standards of the MF-2 Multiple-Family District apply to those uses.

(1) A development plan must be approved by the city plan commission before issuance of any building permit for multiple-family uses. A development plan approved by the commission subject to conditions shall not be considered as finally approved. Until a revised development plan is finally approved by the city plan commission, the development plan approved subject to conditions shall be deemed denied.

(2) Minimum front yard setback is 10 feet.

(3) Fences are prohibited within the required front yard.

(4) Maximum dwelling unit density is 39 units per acre.

(5) Maximum structure heights and number of stories are as shown on the height zone map.

(6) Vehicular access to and from Roper Street is prohibited.

(7) Buildings occupied with multiple-family uses must be constructed using noise mitigation methods so that outside noise levels, measured within the habitable space of a dwelling unit, do not exceed 45 Ldn. For purposes of this condition, habitable space means space in a structure for living, sleeping, eating, or cooking. Bathrooms, toilet compartments, closets, halls, storage or utility space, and similar areas, are not considered habitable space.

(8) No portion of a parking garage may be visible from University Boulevard, Roper Street, and Linnet Lane. Visibility will be measured at a point five feet above the abutting street surface.

(9) A landscaped buffer area must be provided in that portion of Linnet Lane shown on Exhibit 67D. This landscaped buffer area must be shown on the development plan and must comply with the following requirements.

(A) Sixty percent of the area must contain trees, shrubs, vines, flowers, or ground cover vegetation. A minimum of five trees must be planted within the buffer area. These trees must have a caliper of at least two and one-half inches and must be spaced no closer than 50 feet apart, measured from trunk to trunk. All plant material must be recommended for local use by the director of parks and recreation.

(B) The landscaped buffer area must be irrigated and drained by automatic irrigation and permanent drainage systems installed to comply with industry standards.

(C) Pedestrian scale lighting must be provided and located in the landscaped buffer area. The light standards may not exceed 10 feet in height and be spaced more than 50 feet apart. Lighting must comply with the requirements of Section 51A-4.301(E)(2)(c)(i) through (iii).

(D) The city council hereby grants a private license to the owners of all property in Tract IV for the exclusive purpose of authorizing compliance with the parkway landscaping requirements of this paragraph. A property owner is not required to pay an initial or annual fee for this license, although a fee may be charged for issuance of a landscape permit in accordance with the Dallas

Building Code. This private license shall not terminate at the end of any specific time period, however, the city council retains the right to terminate this license whenever in its judgment the purpose or use of this license is inconsistent with the public use of the right-of-way or whenever the purpose or use of this license is likely to become a nuisance.

(E) It is the responsibility of the property owner to apply for and obtain the required right-of-way landscape permit before locating plant materials in the right-of-way. An application for a right-of-way landscape permit must be made to the director of public works and transportation before any plant materials are located in the right-of-way. The application must be in writing on a form approved by the director and accompanied by plans or drawings showing the area of the right-of-way affected and the construction and planting proposed.

(F) Upon receipt of the application and any required fees, the director shall circulate it to all affected city departments and utilities for review and comment. If, after receiving comments from affected city departments and utilities, the director determines that the construction and planting proposed will not be inconsistent with and will not unreasonably impair the public use of the right-of-way, the director shall issue a right-of-way landscape permit; otherwise the director shall deny the permit.

(G) A right-of-way permit issued by the director is subject to immediate revocation upon written notice if at any time the director determines that the use of the right-of-way authorized by the permit is inconsistent with or unreasonably impairs the public use of the right-of-way. The property owner is not required to comply with any right-of-way landscaping requirement if compliance is made impossible due to the director's revocation of a right-of-way landscape permit.

(H) The issuance of a landscape permit under this paragraph does not excuse the property owner, his agents, or employees, from liability in the installation or maintenance of trees, landscaping, or pavement in the public right-of-way.

(d) Skybridges as defined in Chapter 51A are prohibited on Tract IV.

(e) Signs located on the Property must comply with the provisions for non-business zoning districts contained in Article VII. (Ord. Nos. 23873; 25219; 25423)

differs from other parcels of land in the same district by being of such restricted area, shape, or slope that it cannot be developed in a manner commensurate with the development permitted upon other parcels of land in the same district. A modification of the standards established by this article may not be granted to relieve a self-created or personal hardship, nor for financial reason only, nor may such modification be granted to permit any person a privilege in developing a parcel of land not permitted by this article to other parcels of land in this district.

(3) Authorize the use of a structure or portion thereof or incorporate a portion of the main structure for servants or caretakers quarters in this district when, in the opinion of the board, such structure or portion thereof will be used by bona fide servants or caretakers and will not be rental accommodations.
